Capability Statement

A1A NETWORKS INC provides information technology services, consulting services, software solutions and staff augmentation to commercial and government organizations. We can mobilize the right people with the proper skills and implement technology solutions to help organizations improve their performance to meet their business objectives.

A1A NETWORKS INC operates under three principles: trust, transparency, and flexibility. We foster a sense of trust with our clients by doing what we say we are going to do, keeping track of what we promise, listening well, and communicating clearly and succinctly. Transparency is necessary to communicate openly about your options and how we may fulfil them. A1A NETWORKS INC offers the ultimate flexibility to meet your technology needs and staffing objectives by offering a single 'go to' company to solve your enterprise endeavors.

Technology Services

A1A NETWORKS INC Technology Services focuses on the development of sound solutions in a secure environment to meet your specific business needs. By incorporating common sense solutions into seemingly daunting deliverables, we can ensure at the start of the project that we will safely deliver the product to completion. Our services include:

- * Application, Web & Mobile Design & Development
- * Commercial Off the Shelf (COTS) Integration
- * Data Cleansing & Conversion, Database Design, Development
- * Architecture Solutions & Mobile Application Development
- * Enterprise Contents Managements (SharePoint)
- * Customer Relationship Management (CRM Dynamics)

Consulting Services

Businesses today require a range of information technology and staffing support in order to run their operations. Increasingly, technology has added a depth of opportunity as well as complexity.

A1A NETWORKS INC consultants partner with our clients to understand their challenges, recommendations and develop plans for implementation.

Consulting Services focus on integrated solutions designed to enhance the performance of your business. By incorporating industry 'best practices' into your business processes and management strategies, A1A NETWORKS INC can support your business requirements to achieve success.

Software Solutions

A1A NETWORKS INC offers a wide range of software and application development services. We can provide full development support for customized solutions or augment your development teams with the personnel you need.

Our team can provide customized development support for asset management, data management, financial management, and so much more.

Staffing Augmentation

A1A NETWORKS INC is highly experienced in providing personnel resources for commercial, not-for-profit and government agencies.

We have provided the most skilled and qualified personnel at value-pricing to our customers which makes us your 'go to' staffing partner. A1A NETWORKS INC also offers visa status support to ensure a smooth transition of qualified resources.
